**DOUGLAS FIR (Pseudotsuga menziesii)**

Site requirement -- Adapted to low fertility soils but requires good air and soil drainage. Does well in driest sites of the Northeast U.S.

<b>San Juan N.F. Southern Colorado:</b>	<b>Price / lb</b> <b>\$ 190.00</b> sold out
Similar rapid growth of Lincoln N.F. (Sacramento Mts.) more blue in color and slightly more open crown. (36,000)	
<b>Pal~Select Lincoln N.F.:</b>	<b>\$ 180.00</b>
Southern New Mexico, Sacramento Mts.: Highly selected and tested local areas for best shape, density and minimum shearing; quality rapid growth and blue/green to dark green color; Adelgid and Gypsy moth resistant. (34,000)	
<b>Santa Fe N.F.:</b>	<b>\$ 170.00</b> sold out
North-central New Mexico, select canyons, western district: Similar to Sacramento Mts. but more blue in color and slightly slower growing. (33,000)	
<b>Pal~Select Shuswap Lake Region. B.C.:</b>	<b>\$ 300.00</b> sold out
We select local stands for best Christmas tree quality, High adelgid and rhabdocline resistance, long needles, dark green color and small butts. (42,000)	

**CONTENT NOTES:**

1. N.F. National Forest • Some stands are on private holdings within or adjacent to the National Forest.
2. (20,000) Approximate number of seeds per pound are in parentheses at the end of most seed listings.

\*Cover Photo: The third generation is now involved with cone harvest. Chris' sons, Julius and Christos helped collect Fraser Fir from one of the orchards this season.

## TRUE FIRS (Abies)

### BALSAM FIR (*A. balsamea*)

**Nova Scotia:**

**Price / lb**  
**\$ 190.00**

**Cooks Blue Improved:** Collected from a grafted seed orchard

**\$ 230.00**  
sold out

**Quebec:** Improved Seed Orchard

**\$ 225.00**  
sold out

**Minnesota:** A seed orchard developed for natural Minnesota selections specifically for Christmas Tree production.

**\$ 185.00**  
sold out

**New Hampshire Blue:** Collected from a grafted seed orchard

**\$ 220.00**

### CONCOLOR FIR (*A. concolor*)

**Pal~Select Cibola N.F.:** Central New Mexico, Sandia Mts., select canyons. - Fast growth, best blue of all selections ever made and most drought resistant. (10,419)

**\$ 180.00**  
sold out

**San Juan N.F.:** Southern Colorado

**\$ 170.00**  
sold out

**Santa Fe N.F.:** Central New Mexico, Rio Las Vacas and nearby area - Fast growth, very blue, longest needle. (14,000)

**\$ 170.00**  
sold out

**Lincoln N.F.:** New Mexico - Best growth rate, excellent shape and density but not as blue as other sources. Indications are that this selection is most resistant to root rot. (14,950)

**\$130.00**  
sold out

### CORKBARK FIR: (*A. lasiocarpa* var. *arizonica*):

**Apache N.F.:** Arizona

**200.00**  
sold out

### FRASER X BALSAM HYBRID (*A. Fraseri* x *Balsamea*):

Collected from a New England Seed Orchard

**\$ 360.00**

<b>FRASER FIR (<i>A. fraseri</i>)</b>	<b>Price / lb</b>
<b>North Carolina:</b> Roan Mountain, seed orchard.	<b>\$ 250.00</b>
<b>North Carolina:</b> Roan Mountain, wild stands -lower germination 2006 Crop Year, 26% germination:	<b>\$ 100.00</b>
<b>North Carolina:</b> Mt. Rogers Seed Orchard, very uniform quality.	<b>\$ 275.00</b>
<b>GRAND FIR (<i>A. grandis</i>)</b>	
<b>Clearwater N.F. Idaho:</b>	<b>\$ 195.00</b>
<b>INTERMEDIATE (CANAAN) FIR (<i>A. intermedia</i>)</b>	
<b>Pennsylvania Seed Orchard:</b> germination: 45% - 55%	<b>\$ 350.00</b>
Excellent growth rate, bluish color, dense crown form, high needle density on twigs. On going tests show tolerance for less moisture and higher temperatures than Fraser. (46,000)	<b>\$ 125.00</b>
<b>KOREAN X BALSAM HYBRID (<i>Abies Koreana x balsamea</i>)</b>	
<b>New England Seed Orchard:</b>	<b>\$ 370.00</b>
<b>NORDMANN FIR (<i>A. nordmanniana</i>)</b>	
<b>Oregon Seed Orchard:</b> Orchard with 148 trees, all grafted clones. Trees were selected in the 1990's for Christmas Tree production. Please call to discuss desired traits. Pricing based on germination. \$160-\$200	<b>\$ Call</b>
<b>TROJAN FIR (<i>A. nordmanniana ssp. equi-trojani</i>)</b>	
<b>Kaz-Dagi, Turkey:</b> Native to Mt. Ida in northwestern Turkey. Denser and blunter needles that form v-shaped grooves above the twig.	<b>\$ 105.00</b>
<b>TURKISH FIR (<i>A. bornmuelleriana</i>)</b>	
<b>Bolu-Aladag, Turkey:</b> Native to the mountains of North- western Turkey. Breaks bud slightly earlier than Nordmann with a faster growth rate, also some tests have shown resistance to root rot. (6,800)	<b>\$ 95.00</b>
<b>France Seed Orchard Selection:</b> Clones from Turkish provenances. Selected for good homogeneity, better vigor and growth rate, later bud flushing and frost hardiness. (5,500)	<b>\$ 130.00</b>

## PINES (Pinus)

### **EASTERN WHITE PINE (P. strobus)**

**Lake States:** (21,000)

Typical growth, mid range variety.

**\$ 175.00**  
sold out

**North Carolina - Southern Source:**

**\$ 175.00**  
sold out

**Pennsylvania - Central PA Wild Stands:**

**\$ 175.00**  
sold out

### **PONDEROSA PINE (P. ponderosa)**

**Santa Fe N.F. & Lincoln N.F., New Mexico:**

Exceptionally long blue/green needles, good growth rate, shape, density and excellent stem form. Very suited to low fertility and dry sites such as mine spoils and drier landscapes. (11,000)

**\$ 115.00**  
sold out

### **RED PINE (P. resinosa)**

**Lake States:**

Uniform genotype all purpose tree. (49,000)

**\$ 215.00**  
sold out

### **SCOTCH PINE (P. sylvestris)**

**Macedonia Seed Orchard:**

Select, progeny tested, has blue green needles, best stem quality of all Scotch pine, fast growth, needle disease resistant. (65,000)

**\$ 180.00**  
sold out

### **SOUTHWESTERN WHITE PINE (P. strobiformis)**

**Apache N.F. Arizona:**

Beautiful natural shape for landscape and Christmas trees. Resistant to White pine weevil, 3+ years needle retention, stiff branches, fast growth. Must shear early in season - no later than June 15. Tested in retail lot. Customers preferred over Eastern White Pine. (3,500)

**\$ 75.00**

**Lincoln N.F. New Mexico:**

**\$ 75.00**

## SPRUCES (*Picea*)

### **BLACK HILLS SPRUCE (*P. glauca densata*)**

#### **South Dakota:**

Excellent natural shape, practically no shearing required, relatively slow growing, well adapted to Northeast U.S. Prized as an ornamental and for Christmas trees. (167,000)

**Price / lb**

**\$ 335.00**

### **BLUE SPRUCE (*P. pungens*)**

#### **San Juan N.F. Southern Colorado:**

Select area, very blue, fast growth. (90,000)

**\$ 175.00**

#### **Pal~Select Santa Fe N.F.:**

Central New Mexico highly selected for color and shape, 90% very blue. Tendency toward more upright branching; needles not so sharp as San Juan. (100,000)

**\$ 155.00**

#### **Apache N.F. Arizona:**

Very blue, fast growth, upright branching, not as dense as Sante Fe.

**\$ 185.00**

### **ENGELMANN SPRUCE (*P. engelmanni*)**

Excellent landscape and Christmas tree. Has excellent blue color, natural shape and density. Adapted to cold, moist well-drained sites.

#### **Pal~Select Special:**

Our progeny tested 1988 selection for best shape and density, growth rate, and superior traits for Christmas tree and ornamentals. Requires practically no shearing. (91,500)

**\$ 250.00**  
sold out

<b>MEYERS SPRUCE (<i>Picea meyeri</i>)</b> China: Blue green foliage with excellent needle retention.	<b>Price / lb</b> <b>\$ 150.00</b> sold out
<b>NORWAY SPRUCE (<i>P. abies</i>)</b> Lake States: (48,000)	<b>\$ 185.00</b>
New Hampshire - Seed orchard:	<b>\$ 185.00</b>
Pennsylvania - Landscape Specimens:	<b>\$ 190.00</b>
<b>ORIENTAL SPRUCE (<i>P. orientalis</i>):</b> Dark Green, short needles and dense foilage. High value landscape plant.	<b>\$ 140.00</b>
<b>WHITE SPRUCE (<i>P. glauca</i>)</b> Native Eastern U.S. (Blue) spruce. Well adapted for Eastern U.S. landscape. • Not recommended for Christmas trees. Lake States: Landscape specimens, fast growth, blue and excellent natural shape and density. (170,000)	<b>\$ 200.00</b> sold out

## OTHER SPECIES

<b>ARBORVITAE (<i>Thuja occidentalis pyramidalis</i>):</b> Pyramidal form for landscape and hedgerow planting. (261,504)	<b>Price / lb</b> <b>\$ 150.00</b>
<b>E. HEMLOCK (<i>Tsuga canadensis</i>):</b> Pennsylvania: for landscape windbreak and hedgerow planting. (135,000)	<b>\$ 275.00</b> limited supply
<b>GIANT SEQUOIA (<i>Sequoiadendron giganteum</i>):</b> California Seed Zone 534.61 (108,000)	<b>\$ 325.00</b> sold out
<b>ARIZONA CYPRESS (<i>Cupressus Arizona</i>):</b>	<b>\$ 90.00</b>
<b>WESTERN RED CEDAR (<i>Thuja plicata</i>):</b>	<b>Price / oz</b> <b>\$ 25.00</b>
